FALL ELECTIONS VERY EXCITING

McClellan Elected Mayor of New York and Jerome Wins Out.

REPUBLICAN BOSSES BEATEN

Pennsylvania Breaks Away From Ring Rule—Ohio Elects a Democratic Governor—Several Cities Have Democratic Mayors.

Special to The Gainesville Sun:

New York, Nov. 8.—The latest returns make the election of McClellan safe with a plurality of 3,500. The friends of Hearst are making threats of a contest. The official figures assure the election of Jerome for district attorney by a narrow margin.

New York State.

Buffalo, Nov. 8.—J. N. Adams, Democrat, was elected mayor by 9,000 majority.

Albany, Nov. 8.—Chas. H. Gans, Republican, elected mayor for third term by 6,000 majority.

Illinois.

Chicago, Nov. 8.—The Republicans elected four judges of the supreme court and entire ticket, except one Democrat for sanitary trustee.

Ohio.

Cincinnati, Nov. 8 —Dempsey, Democrat, is elected mayor and State will no doubt elect Pattison, Democrat, for governor by small majority.

Pennsylvania.

Philadelphia, Nov. 8 —The Republican ring has been routed by the reformers. The ticket is elected by 30,000. Wm. H. Berry is elected State treasurer. Mayor Weaver says the city of Philadelphia is redeemed. The wildest excitement prevailed all day. Berry was nominated as a Democrat and endorsed by the Independents and others.

Indiana.

Indianapolis, Nov. 8.—The Democrats win in 20 counties in the State. Ten municipalities have been carried against the Republicans.

The cities of Richmond and Terre Haute elect Democratic mayors.

Kentucky.

Louisville, Nov. 8.—This city will have a Democratic mayor and the Legislature will be Democatic.

Notes.

Union Labor Candidate Eugene Schmitz was elected mayor of San Francisco, Cal.

Governor George H. Ulter, Republican, is elected in Rhode Island. Republican gains in the Legislature.

New Jersey has gone Republican against the machine, and the hope for a Democrat to succeed United States Senator J. P. Dryden in 1907 are blasted.

Ex-Speaker Henderson Very Sick.

Dubuque, Iowa, Nov. 8—Dr. Joan C. Hancock issued today the following statement regarding the illness of ex-Speaker Henderson: "There is no particular change in the condition of the patient. He has been slightly delirious at times, but no different than heretofore. Death is not imminent unless a hemorrhage develops."

Champion of Woman's Rights Dies.

London, Nov. 8—Lady Florence Dixie, the well known writer, explorer and champion of woman's rights, who acted as war correspondent for a London paper during the Boer war, died today at her home Glen Stuart, Annan, Dumfrieshire, Scotland.

Alexander's Condition Improved.

New York, Nov. 8.—The condition of James W. Alexander, former president of the Equitable Life Assurance society, who is ill in a sanitarium in Deerfield, Mass., last night had shown sufficient improvement to encourage his physicians.

RIOTERS BARRICADE STREETS.

City of Prague in Hands of Revolutionists—Want Equal Suffrage.

New York, Nov. 8.—A cable dispatch to the Herald from Prague says that Barricades formed of stone and garden seats have been erected here and barb wire has been stretched across the streets by the rioters who shoot from the barricades at the barracks.

The organizations have distributed 1,200 revolvers. Five thousand Czechs and students have declared their solidarity with the revolutionists.

An officer of dragroons on the principal street yesterday fell from his horse which was frightened by the noise of the firing and broke his foot. The mob tried to lynch him. Socialists had formed a procession on Saturday in order to demonstrate in faor of universal suffrage.

Gendarmes, cavalry and infantry were brought from the country to strengthen the Prague garrison. Soon after noon the Socialists decided to break their promise to be orderly and attacked the police with sticks and stones. The police defended themselves with revolvers and sabers, but were unable to disperse the mob. Captain Baron Unlauf, of the dragoons, commanded them to attack at full speed on the principal street—the Graben. The Socialists were dispersed.

Three regiments of infantry then occupied all the streets and public squares. Four persons were killed and a boy's head was split open.

About one hundred other persons were wounded and two hundred rioters arrested. The pavements were stained with blood. The superintendent of the police received thirteen wounds. All shops and house doors were closed. The tram cars and other means of conveyance have been stopped.

COWBOYS FOR ARGENTINE.

Texans Will Show South Americans How to Rope and Tie Cattle.

New York, Nov. 8—If Argentine vaqueros do not learn more about roping and tying cattle in the next few months than they ever knew befort, it will not be the fault of Spence Jewell and his team of Texas cowboys, who sailed for Buenos Ayres yesterday under contract to Hill and Connell, old Texans and cowboys, and now the owner of a ranch in South American republic.

There is not a man in Jewell's band of cow men who is not a celebrity.

Clay McGonnigle, the acknowledged leader for a long time of champion roped, the crown and tier a steer in 23½ seconds and famous throughout the country the cow men wearing sombreros wits crowns a foot high and brims a foot across, attracted much attention on Broadway. Not one of them have ever been in New York before and they enjoyed themselves immnsely.

Mr. Jewell owns a ranchin Argentine having acquired it last August, returning to America to get a squad of cow punchers. It is a new proposition, he explained. The vaqueros know all about lassoing cattle but they use ropes a hundred feet long and don't know anything about throwing and tying cattle. It costs a lot of time the way they do things. Bill McGonigle has been training two cow ponies for the boys and they will teach the natives what they know about a rope."

Woman's Head Identified.

Boston, Nov. 8.—The woman's head which was found in a hand satchel on the bottom of the harbor yesterday was taken to the Harvard medical school at Cambridge today, where, with the other parts of the body that were found in the two suit cases in the harbor here, it was identified as that of Susanna Geary, the chorus girl of Cambridge. Mrs. Geary and her daughter, Evelyn, visited the medical school today and made the identification.

Prominent Lawyer Accidentally Shot.

Chattanooga, Tnn., Nov. 8.—A special to the News from Rockwood, Tenn., says General F. D. Owings who was accidentally shot by his own gun while out hunting and whose arm was amputated in consequence, died this morning from the effects of the wound. General Owings was a prominent lawyer and politician.

NEW GOVERNMENT IS BEING FORMED

Count Witte Is Getting a New Cabinet Together.

AMERICAN MODEL NOT SUITABLE

The Formation of a New Cabinet Is a Difficult Problem, Because of the agitation of Reformers Who Want Radical Changes.

St. Petersburg, Nov. 8.—The object for a sweeping extension of the suffrage in elections to the national assembly, promised by the emperor is published. After the first days of confusion and doubt following the issuance of the manifesto giving a constitution Russia, and nominating Count Witte premier, the latter's new government appears to be getting fairly under way.

The cabinet with which Count Witte will undertake the difficult task of guiding the nation on its new course of constitutionalism and preventing the radical and agitatory elements from landing it on the rocks of dissolution is now beginning to take form. The names of the two Shipoffs, one of them Ivan, having been Count Witte's former assistant in the ministry of finance and his associate at Portsmouth, N. H., and the other Dmitri, the Moscow zemstvoist congressman, it is semi-officially announced, will be his minister of finance and comptroller general respectively. M. Nichieff president of the Southeastern railway, as the Associated Press is informed, is recommended by the railroad men to succeed Prince Hilkoff, is now on his way to St. Petersburg to confer with the committee on ways and communications with the nomination of Prince Alexis Obelnsky as procurator general of the holy synod already gazetted, this provides four of the eight ministerial posts at the disposition of the premier, Prince Urusoff, until recently governor of Tver may also be called to a cabinet position yet undetermined.

For the two portfolios for education and justice, Count Witte has been disappointed in obtaining the men he originally desired. Though Dmitri Shipoff is no longer in sympathy with the zemstvo majority which in the interval of the first and second congress progressed so far beyond his opinion, has failed to secure election as a member of the bureau, he will rally to the support of the new cabinet a strong faction of conservative zemstvoists who are also followers of Pan-Slavism whose doctrine is the development of a Russian government on Russian lines. They believe that the West European and American models are not suitable to the Slav people. Dmitri Shipoff is a man of sound conservative ideas.

The selection of M. Nemechaieff is apparently good. He is a practical man of affairs who has had long experience in railroad administration and as shown by the recommendation of the railroad delegation has the sympathy of the workmen. The former minister except four who are not subject to the jurisdiction of the premier are slated for dismissal. Count Witte is not submitting much of his new program to the old committee of ministers and the project of extension of suffrage though announced and approved by the committee of ministers was drafted under Count Witte's direction after consultation with a number of Liberals including Professor Muromtsaravief, who resigned his chair at the academy of military law on account of his liberal opinions, and M. Lazareff sky, one of the editors of the liberal legal weekly Pravo.

The new measure granted representation to the workmen on the same basis as peasants, one representative for each 250,000 and extends the suffrage to the great class of "intellectuals" possessing college degrees who have been the heart and soul of the reform movement.

Voters will also under the new regulations include tenants paying an annual rent of $250, petty traders, except the lowest class, holders of high school diplomas and officials of the St. Petersburg and Moscow with salaries of no less than $600. A revision of the electoral lists will be undertaken immediately in order to not interfere with the convocation of the national assembly at the end of January.

The news from the provinces indicates the dying down of the reign of riot, and license following the promulgation of the imperial manifesto.

Normal conditions are gradually resuming. The most interesting developments are in Poland, where a Polish national movement has blossomed forth under favorable conditions.

GROOM OF A MONTH SUICIDES.

Dead Man Received Letter Threatening His Life.

Vienna, Ga., Nov. 8.—Howard Owen residing near Lilly, this county, suicided in bed at his home by shooting himself through the heart. He had been married one month to a day.

The deed was evidently premeditated and deliberate. The family were not in the room at the time but hearing the report of the pistol, his wife ran in and threw a bucket of water on him to quench the fire which was burning his clothing. The deceased was a member of one of the most prominent families of Dooly county and stood high.

It is stated that he was held up a few nights previous in the woods and robbed. The morning he suicided he found his pistol which had been taken from him by the robbers, and a skull and cross-bones and a note reading: "Prepare for death," or words to that effect. "Your name is Dennis."

These he is said to have found under his front door steps.

Woman's Death a Mystery.

New York, Nov. 8.—Professor Meeker, chief pathologist and chemist, of Philadelphia with three attaches of the coroner's office in that city, called on Coroner Sholer with a view of obtaining the organs from the body of Mrs. Todd which they intend to analyze for the purpose of discovering poison. This was done at the instance of the district attorney of Philadelphia, who desired to complete his evidence in the case. A portion of the stomach will be taken to Philadelphia and the rest will be retained here for examination by the local authorities. The case fairly bristles with suspicion, and the firm conviction is that future developments will put it side by side with the Patrick case in depth of interest and quality of crime.

Rawlings Keeps Up Big Racket.

Valdosta, Ga., Nov. 8.—Curious crowds thronged the streets around the county jail, attracted by the yells, songs and racket made by J. G. Rawlings, Lowndes county's star prisoner. Rawlings is said to be working the insanity dodge or attempting to do so. He became extremely violent toward the sheriff, his deputy and the jailer, and has cursed the officials bitterly whenever Sheriff Passmore would go to his cell. His profanity was of the most lurid character, and he told the sheriff that he expected to get "some of his heart's blood" yet for the part that officer had taken in the celebrated case.

Died from Effects of Fist Fight.

Annapolis, Md., Nov. 8—Midshipman James R. Branch, son of James B. Branch, of the Hanover bank of New York city and secretary of the American Bankers' association, who was seriously injured in a fist fight with another midshipman, died today. The midshipman was operated on yesterday at the Johns Hopkins hospital his skull being opened and a clot of blood removed, and there was hope of his recovery, but he suddenly grew worse today and expired.

Big Exposition for the South.

Atlanta, Nov. 8.—An industrial exposition of the south's resources for 1910! That is the verdict and decision of a representative meeting of Atlanta's business men held yesterday afternoon in the chamber of commerce hall to discuss the proposition. Thirty three out of the fifty prominent Atlanta business men who were present, met to be present and let their views to this discussion voted unanimously that Atlanta should give the exposition in 1910, or earlier.

MRS. CHADWICK IS REFUSED NEW TRIAL

Last Hope Gone Unless Supreme Court Grants Trial.

WOMAN NOW UNDER SENTENCE

Mrs. Cassie Chadwick Will Have to Serve Her Sentence of Ten Years in Ohio Penitentiary Unless the Highest Court in Land Interferes.

Cincinnati, Nov. 8.—Mrs. Cassie L. Chadwick has lost her last hope for a new trial unless the supreme court of the United States will consent to allow a hearing. The United States circuit court of appeals today refused her application for a new trial. The lengthy opinion of the court was ready by Judge Lurton.

Mrs. Chadwick is now in jail at Cleveland under sentence to the Ohio penitentiary for ten years having indicted and convicted of conspiring to defraud under the national banking law the specific case involving the bank at Oberlin, O., whose president has died since the exposure of the matter.

The case was brought to the United States circuit court of appeals on a writ of error; sentence was suspended pending the decision of the appeal, and the hearing of the case was expedited by the court being placed at the head of the Oct. calendar. Arguments were heard on Oct. 3 and 4, Attorney Dawley and Attorney Wing presenting the case of Mrs. Chadwick, while District Attorney Sullivan upheld the side of the government.

Mrs Chadwick Hears the News.

Cleveland, O., Nov. 8—Mrs. Chadwick was in conversation with her attorney, J. P. Dawley, when the news of the decision was brought to her. She made no demonstration whatever and scarcely no comment, allowing Mr. Dawley to speak for her.

"This means that they have beaten us," said Mr. Dawley. "It would scarcely be advisable for us to say anything concerning the decision at the present time. What the next step will be I cannot tell now, but, of course, I shall do something to safeguard the interests of my client. I am naturally disappointed in the outcome. I did not think that the court, in view of all the facts presented, could come to any other decision than in favor of Mrs. Chadwick."

A GIRL'S MYSTERIOUS DEATH.

Body of Student of Vassar College Is Found in the College Lake.

Poughkeepsie, N. Y., Nov. 8.—The body of Miss Emily Ensign, of Youngstown, O., a member of the freshman class at Vassar college was found in the college lake early today.

Subsequent investigation showed that Miss Ensign yesterday not feeling well took some headache powders. It is believed that she unintentionally took an overdose and that while dazed by the effects of the medicine wandered away in the darkness of last night and accidentally walked into the water.

Miss Ensign since coming to the college this fall had given frequent evidence of home-sickness. Recently her mother visited her and since that time had appeared in much better spirits.

Yesterday she found her classes unusually hard. Her failure to appear at dinner in Putnam hall caused comment and later when she had not returned to her room other students became alarmed and notified the faculty.

The search of the college grounds was immediately begun and continued until the body was recovered an hour after midnight. Immediately after the finding of the body the faculty attempted to trace Miss Ensign's movements of yesterday afternoon. They were unable to turn in any additional fact. She had complained of a headache and had taken some headache powders which she had brought to the college with her from home.

The theory of an overdose which temporarily affected her mind is the only one suggested.

ANOTHER BIG NAVAL STORES PLANT

Phifer & Waits Have Started New Business at Grove Park.

THE TIMBER IS ALL FINE

Firm Has Secured Several Thousand Acres, but Will Begin With Fifteen Crops, to be Increased in Judgment of Operators..

Another big naval stores manufacturing establishment has been started in this county. The farm is situated at Grove Park, and the promoters are W. B. Phifer of this city and S. F. Waits of Grove Park. The firm will be known as Phifer & Waits.

While the firm has secured several thousand acres of fine round timber, operations will begin with only fifteen crops, or 150,000 boxes, which alone being virgin timber, will make a big yield. From time to time they propose to increase the number of crops

Both gentlemen are full of ambition and energy, and there is ample capital behind the concern to make a big financial success in its operation and yield. Mr. Waits will be the manager.

COUNTY LICENSES.

Collector Dickinson Says They Are Coming in Slow.

Notwithstanding that the time expired for the issuing of business tax, or more commonly known as licenses for doing business, on October 1 for the current year, Collector Dickinson complains that they are being taken up very slowly. A large per centage of business concerns in the county, many of which are located in Gainesville, are continuing without the license as required by law.

The law requires that every business or firm transacting business of any kind in the county are subject to this tax, which shall be issued on October 1st of each year. The law also compels the collector to secure from such firms the amount of the license due. Collector Dickinson states that, inasmuch as the fall term of the circuit court will convene in this city the coming week, and he must make returns to the grand jury of all persons or firms doing business in the county without a license, he suggests immediate settlement to those delinquent, with the warning that if their name goes in with the report they are subject to indictment, which means, not only a great deal of annoyance, but a largely increased financial necessity, as the costs of the court will be involved.

WILL MAKE NO EXHIBIT.

Dutton & Co. Will Have No Display at Great State Fair.

Hon. Walter G. Robinson, manager of the cotton department of H. F. Dutton & Co., stated Wednesday that, after due consideration, his firm had decided to make no exhibit of Sea Island cotton at the State Fair, for the reason that an exhibit from this firm might seem unfair to the grower who produced the same.

"While we would like very much to see a fine exhibit of long staple," remarked Mr. Robinson, "we hardly feel inclined; we are not growers, and it is to the grower that honor belongs."

There will be several bales of cotton on display at the Fair, however, and arrangements have been made to operate a cotton gin upon the grounds.

Marriage at Waldo.

There was a pretty marriage at the Baptist church, Waldo, at 11 o'clock Tuesday morning, when John Golman and Miss Leola Green took the solemn vow which bound them together for the remainder of their lives.

In the presence of a large number of friends of the contracting parties Rev. Mr. Farmer, pastor of the church, performed the ceremony in a beautiful and impressive manner.

The contracting parties are well known and popular in Waldo. The groom is employed as a cigar maker by the El Toney Cigar Company. The bride is the accomplished daughter of Mrs. E. N. Green.

The bridal party left on the afternoon train for Jacksonville, where they will be the guests of the groom's mother for a few days, when they will return to Waldo, their future home.

Friends extend congratulations.

BUCKMAN BILL IN COURTS.

Quo Warranto Proceedings Allowed Against Board of Control.

A special from Tallahassee under date of November 7th, says:

"The Supreme Court today granted the petition of the State of Florida on relation of the Attorney-General et al. to bring quo warranto proceedings against members of the Board of Control to show by what authority they exercise the rights as officials of such board. The writ is made returnable November 28. The petition was presented to the court by Judge Arch Henry of Lake City."

A Mystery About Blood.

There is something very mysterious about the color of human blood, or, rather, as to what causes its red color. The physiologists say that "the color of blood is due to the red corpuscles which are contained in the vein fluids," but this does not nearly explain the mystery. An aggregation of blood corpuscles is red, to be sure, but in small numbers they are yellow, while one or two examined separately are found to be of a very light straw color. Why a large aggregation of these tiny disks should convey the impression of red to our senses, while a few show a yellow and a single specimen of light straw color, is something we would like to see explained.—St. Louis Republic.

A Dangerous Symptom.

When a member of Aunt Eunice Washington's family died—the family she had served with faithfulness so many years—the old woman's grief was as poignant as if she had understood the causes which led to it.

"It's de same trouble took Miss Lily off dat took her sister Marianna eight years ago," she said to a friend, wiping her eyes on her gay plaid apron. "When I heard Dr. Sam speak 'bout 'de vital spot' I knew Miss Lily wouldn't stay hyar much longer. When dat vital spot comes out on a pusson you might jes' as well lay down your hope an' prepare for de end."

Feeders of the Rhine.

A German geographer calls attention to the fact, known to few, that the Rhine gets some of its water from Italy. Some miles above the Via Mala the Rhine is augmented by a turbulent mountain torrent whose chief tributary is a brook that comes from the Val di Lei, which politically belongs to Italy, though separated from the rest of that country by glacier covered mountains over which there is a trail to Chiavenna.

Incomprehensible.

"And," asked her dearest friend after she had returned from her wedding trip, "is your husband just as you expected he would be? Aren't you disappointed in him in any way?"

"Well, yes," she replied; "or, I don't know that it is disappointment exactly, but I can't understand how he can see a letter addressed to me lying around all day and never think of opening it."—Chicago Record-Herald.

Constipation.

Health is absolutely impossible if constipation be present. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsay, P. M., Bronson, Fla., writes, Feb. 12, 1903: "Having used Herbine, I find it a fine medicine for constipation." 50c a bottle. Sold by W. M. Johnson.

WOMAN CAME FIRST.

Eskimo Tradition as to the Origin of the Human Family.

The arctic Eskimos have their tradition of the origin of man, much the same as the Caucasian, and their tales of the prowess in battle, their sagas relating the past glories of what is now an almost extinct race are as thrilling as some of those that tell of the wondrous deeds of Odin and Thor or of those Grecian ancients whose deeds are yet preserved in prose and poetry.

According to Eskimo tradition, the first man was made not from the dust of the earth, but from a piece of chewing gum, for be it known that the Indian is the original gum chewer as well as tobacco smoker. But woman was first. The first woman was lying one day on her couch of furs chewing gum. Growing weary, she took it from her mouth and fashioned it into the form of a man. Tired then, she fell asleep, to find upon her awakening that the breath of life had been breathed into the figure of gum of which she had been the architect, and, lo, man was there! And so the world began to be peopled.

It is related as a fact that high upon a mountain to the north and east of Point Hope are the skeletons of three comiaks, or boats, in good condition. They have been well preserved during 20,000 years or more by climatic conditions and may have been the original Noah's arks. They at one time in all probability rested upon the beach.—St. Louis Globe-Democrat.

CHARCOAL.

The Way That Used In Making Gunpowder Is Produced.

Charcoal making for gunpowder is a much more complicated process than the ordinary field kiln manufacture. Only certain kinds of wood are used—usually the young shoots of elder and willow—and it is cut in the spring, so that the bark may be stripped off. It is then piled under airy, open sheds and allowed to remain several years until it is thoroughly dried. When the powder maker is ready for a new supply of charcoal the wood is cut into lengths of three feet and placed in tight iron retorts, under and around which a fire roars continually. The dampers and pipes are so arranged that the workmen have complete control of the heat. At the end of the retort a hole is left for the escape of the inflammable gases resulting from the charring process. A pipe catches them as they leave the retort and conveys them into the furnace, where they take the place of a good deal of fuel. When the flames of the gas become a deep blue color the workmen know that the wood is sufficiently charred, and the retort is cooled down as quickly as possible. The charcoal is then left for a week or more before grinding, because if placed in the machine at once there is danger of spontaneous combustion. The best charcoal is jet black and fractures show velvety surfaces.

His Practical View.

A certain sweet faced grandmother is sometimes startled by the up-to-dateness of her grandchildren. The other day she was telling the youngest of them, a boy five years old, the story of Lot. She showed him the pictures of the wicked cities of the plains enveloped in the fire from heaven. The little chap gazed at the pictured conflagration and then asked:

"Were they insured?"—New York Press.

BAD BLOOD WEAKENS THE SYSTEM AND INVITES DISEASE

Every part of the body is dependent on the blood for nourishment and strength, and when from any cause this vital stream of life becomes impoverished or run-down, it invites disease to enter. No one can be well when the blood is impure; they lack the energy that is natural with health, the complexion becomes pale and sallow, the vital energies are at a low ebb, and they suffer from a general broken-down condition of health. The system is weakened and unable to resist the diseases and disorders that are constantly assailing it. The Liver and Kidneys, failing to receive the proper stimulation and nourishment from the blood, grow inactive and dull, and the waste matters and bodily impurities that should pass off through these channels of nature are left in the system to produce Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases or some other blood disorder. When the blood is in this weakened and diseased condition it should be treated with a remedy that is not only thorough, but gentle in its action. S. S. S., a purely vegetable remedy, made of roots, herbs and barks, is just what is needed. It not only cleanses the blood of all impurities and poisons, and enriches and strengthens it, but gently builds up the entire system by its fine tonic effect. S. S. S. reinvigorates every member of the body, gives tone and vigor to the blood, and as it goes to the different parts, carries robust health and strength. S. S. S. acts more promptly and gives better results than any other medicine. It cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases and all other blood disorders, and cures them permanently. Our Medical Department will be glad to give advice without charge to all suffering with blood or skin diseases. Address

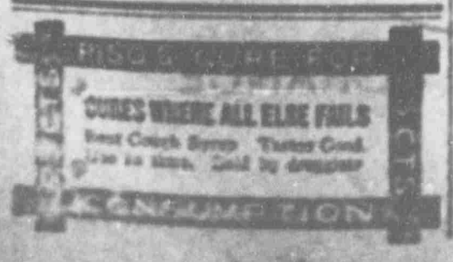
Jacksonville, Nov. 8.—The Elks' circus and trained animal show today was the amusement event of the season. The parade would have done credit to a Barnum or Forepaugh in their palmy days. The "real" show tonight, with the sideshow attachments, was the "best ever." Me.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. J. W. McCollum & Co.

In the Mayor's Court.

Because it is alleged that Chas. Hill, colored, insisted on ill-treating his good wife, he was arraigned before Mayor Thomas Tuesday morning and sentenced to pay a fine of $5 and costs, aggregating about $9, or go to jail for thirty days. In the absence of the coin with which to pay his way to freedom, Hill now languishes behind prison bars with nothing between himself and the outside world but the substantial walls of an iron cage.



The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

MELROSE MELANGE.

School Opened—Delightful Party. Many Personal Paragraphs.

Melrose, Nov. 8.—The Melrose school term was opened yesterday by Prof. R. L. Rogers of West Lake, with an attendance of 33 scholars. Hon. W. E. Baker, one of the trustees, with a few appropriate remarks welcomed the teacher and presented him to the patrons and children. Prof. Rogers replied with a short speech and declared the school open for business.

An interesting exhibition of fancy shooting was given by the traveling agent of the Western Cartridge Company, on Thureday forenoon.

Mrs. E. M. King has returned from her annual visit North.

Among the visitors in town during the past week were H. Grimes of Jacksonville and A. L. McRae and Miss Bessie McRae of Evinston.

Dr. P. D. Hicks of Waldo is in town on professional business.

Miss Nettie Huffman was baptized at the foot of Grand street on Thursday forenoon by Rev. B. R. Moseley, as a member of the Baptist church.

A branch of the Epworth League was organized here Sunday evening with the following officers: Mrs. T. J. Sistrunk, president; Miss May Barnett, vice-president; Miss S. L. Mullin, secretary; Miss Cora Lyons, corresponding secretary; Miss L. Jackson, treasurer. The first meeting will be held on the 3rd Sunday in November. So far 15 members are enrolled.

On Friday evening, November 3rd, Miss Flora Morris entertained quite a number of her friends at cards, the principal game being the new way to play "set-back." Eating fudge was also another interesting feature. Miss Flora certainly understands the art when it comes to entertaining her friends. It was vouched for by all that the evening was more than enjoyed. At a late hour all bade her good night, returning home with the happy thoughts mingling in their minds that another pleasant evening had been spent at Miss Flora's home.

The young people of Melrose anticipate having a picnic at Earleton on Thanksgiving Day, going over on the steamer Alert as she goes to Waldo and coming back on her return trip. If our picnic materializes Capt. Weeks will extend free passage to his host of young friends.

Ernest Earl Weeks has been visiting his brother, Captain F. A. Weeks, for a few days. He returns home Tuesday.

The Exact Thing Required for Constipation.

"As a certain purgative and stomach purifier Chamberlain's Stomach and Liver Tablets seem to be the exact thing required, strong enough for the most robust, yet mild enough and safe for children and without that terrible griping so common to most purgatives," say R. D. Webster & Co., Udora, Ontario, Canada. For sale by all druggists.

City Directory For Sale.

We have a number of copies of Burtz' City Directory for sale at The Sun office. It is a handy reference book for business and professional men, giving the names of residents, with street and number. Price, $2.

Mr. Callison in Tampa.

N. A. Callison, general manager of the Spring Park Stock Farms near Gainesville, is in the city and is making arrangements with Dr. N. B. Rhodes for the accommodation at the fair grounds of the fine exhibit of live stock which his company will ship to the State Fair. So large is the number of their entries that they will be able to show in fifteen different classes, and among this number will be some Hereford's, of which the farm makes a specialty, that took prizes at the World's Fair at St. Louis.—Tampa Daily Times, November 7th.

Son Lost Mother.

"Consumption runs in our family, and through it I lost my mother," writes E. B. Reid of Harmony, Me. "For the past five years, however, on the slightest sign of a cough or cold, I have taken Dr. King's New Discovery for Consumption, which has saved me from serious lung trouble." His mother's death was a sad loss for Mr. Reid, but he learned that lung trouble must not be neglected, and how to cure it. Quickest relief and cure for coughs and colds. Price 50c and $1.00; guaranteed at all drug stores. Trial bottles free.

Attention, Elks.

The regular weekly meeting of Gainesville Lodge No. 990, B. P. O. E., will be held in the Masonic hall over Dutton's bank this evening. There will be work. A full attendance is desired, and visiting brothers will be accorded an Elk's welcome.

Not Reassuring.

"Mr. Stalate," said the bashful younger sister, "I asked sister if she thought you would get up and go home like the other young man did if I recited 'Curfew Shall Not Ring Tonight.'"

"And what did she say?"

"She said there wouldn't be any harm in trying."

Tobacco seeds are so minute that a thimble will contain enough to sow over an acre of ground.

"I Thank the Lord!"

Cried Hannah Plant of Little Rock, Ark., "for the relief I got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for 5 years." It is a marvelous healer for cuts, burns and wounds. Guaranteed at all drug stores; 25c.

The first issue of The Live Oak Daily Democrat made its appearance on Tuesday, November 7th, with John O. LaFontisee as editor, Sherwood & Pound, publishers. The Democrat is a seven column folio, well filled with telegraphic and local news, and shows a very liberal advertising patronage by the enterprising merchants of Live Oak. The people of our sister city have got what they have long sought and it is up to them to give it the patronage it deserves. The Sun wishes The Democrat abundant success.

EDITORS ARE HUMAN.

Some people are of the opinion that editors are nothing but a machine that grinds out good, bad and indifferent stuff with which to fill the paper each day or each week, as the case may be; but such is not the fact.

The editor of a paper is always interested in the progress of the city in which his paper is printed, and if the growth can be aided by anything that can be used as reading matter it goes into the columns free of charge. The paper every week prints many articles that are copied in other localities and credited, which also helps to bring the city and county before the people, and when anyone desires to locate in a new city they generally will at least go and look over that place they have seen so much about in the papers.

The publisher of The Sun works as much for the interest of Gainesville as he does for himself—not wholly because he prefers to divide the proceeds of his labors on such a basis, but because of the fact that the efforts of the local paper helps the city as much as it does him. His efforts are often criticised and seldom praised. When he defends the city from the attacks of others who would injure its good name, it is too often considered by some that he is not doing half enough, yet such defense does not bring him in one cent of revenue and not a cheerful word of praise.

But there are some people, Heaven bless them, who will speak their feelings, as did the lady who called up The Sun by 'phone on Tuesday morning and said that she had never before called up a newspaper to either compliment or criticise, but she must do so now, and expressed the opinion that the editorial, "Help the Teacher," was the best thing she had seen in any paper and that it hit the mark exactly.

The Sun will always labor for the best interests of the public schools—the bulwark of our free institutions, and as good schools make good citizens, and good citizens make a good city, we hope to be a sharer in the honor of seeing Gainesville become one of the best cities in Florida, through the efforts of a combination of earnest endeavor.

At no previous time in the history of the United States has there been so much uncertainty preceding a Congressional session with reference to the legislative proceedings. Party lines appear to zigzag in every direction. Mason and Dixon's line appears to be in a state of oscillation. A Republican administration will have strong Democratic support in the House and in the Senate. Some Republicans in both Houses will oppose the President if they dare to do so. On the tariff question, on reciprocity, on railroad rate legislation and on almost every national question, the administration will have support from sections of the country that have heretofore been unfriendly. All signs indicate that party lines will be to a great extent disregarded. Why should there continue to be party lines if results of greater benefit to the entire country can be attained without them? Those who think alike, whether they reside east or west of the Ohio river, or north or south of the Mason and Dixon line, should vote together. The atmosphere of partisanship is always refractive and misleading. Judgment cannot sit in the lurid smoke of conflict. Is is certain that not since the days of the first President have party lines been so indistinct. The condition is fraught with beneficent possibilities.

The Tampa high school boy is figuring on which costs him the most worry—the things he ought to do, or what he ought not to do, says The Times. What he ought to do is to not do what he ought not to do.

Beware of Ointments for Catarrh That Contain Mercury,

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

THE MOST IMPORTANT EVENTS

Transpiring in "The Land of Flowers." Things "Boiled Down" to Suit the Busy Reader—Items of Interest to All Classes.

The Evangelical Lutheran Synod of Georgia is in session at Mason, Columbia county, this week.

Pensacola has about wound up the oyster and will now prepare for the Mardi Gras festivities.

The new Christian church at Kissimmee was dedicated on Sunday. All the churches in the city joined in the exercises.

The Floridian thinks Jacksonville is getting too good, when a man is deprived of having a clean face on Sunday. Shave yourself.

Francis A. Most, 15 years old, disappeared from the Acme Hotel in Jacksonville on Monday, and his mother is said he has left the city.

Jeff Johnson of Goulding had an arm taken off by accidentally falling in front of an engine while walking along the railroad Monday evening.

At Pensacola last Sunday there was a general baptism among the colored folks, and it is reported that upwards of 75 were immersed on that day.

W. D. Barnes of Marianna is in the chicken business for the money, and he has some very fine fowls, which captured prizes at the Gulf Coast Fair at Funiak.

The editor of The Orlando Star has been presented with a loaf of "sweet thing" bread, and it starts the drool running out of the corners of the State fowls mouth when he thinks of the Star man enjoying the feast.

Arlie Latham, who was a South Atlantic League umpire the past season, will manage the Jacksonville team next season. He is a veteran ball player, and has played with the St. Louis Browns, Cincinnati Reds, etc.

H. G. Ritchie and J. S. Johnson were arrested for illegally selling whiskey in a "wet" county—St. Johns. It seems that it don't make any difference to such fellows whether the county is "wet" or "dry" if they want to sell.

The trial of William F. Williams, charged with the murder of Edwin C. Dansby, which occurred in Pensacola some months since, will probably take place in Marianna on Nov. 29th, instead of Nov. 16th, as at first decided upon.

A number of Germans who came South to work on the East Coast Railway extension are anxious to return to New York, on account of the hard work and poor food. It is too bad that where cabbages grow so plentifully there is no sauer kraut.

The Star regrets to hear of the accident that befell Judge Hopkins Saturday. He was grooming his horse when the animal raised his leg, struck the Judge over the eye and crushed his eyeglasses, making quite a gash in his forehead.—Ocala Star.

C. N. Lee, the negro first tried in the circuit court for the murder of Paul Youmans in Jacksonville last February, and who, in the criminal court, was last week found guilty of aggravated assault, was Monday awarded a new trial, and he will again be tried for aggravated assault.

The evidence in the case of the Turner shooting at Pensacola a few days ago would seem to justify the wife in killing her brute of a husband, Francis M. Turner, and it took the coroner's jury four hours to decide whether they would hold the abused woman on a charge of manslaughter. Brute slaughter may have been better.

Hugh C. Macfarlane, collector of the port of Tampa, has sued the editor of The United States Tobacco Journal for slander. Macfarlane says in his complaint that in a recent issue of the paper the editor compared him to George Washington Plunkitt, the Tammany ex-leader, and he considers that he was maliciously libeled.

No Poison in Chamberlain's Cough Remedy.

From Napier (New Zealand) Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by all druggists.

Alabama Gubernatorial Campaign.

Montgomery, Ala., Nov. 8.—Every man at the capitol has his ear to the ground to hear the reports from Russellville, where the rival candidates for the Democratic nomination speak for the first time. Dr. Cunningham, the lieutenant governor, has the advantage of being at his old home, but Mr. Comer goes loaded for the largest sized bear of the Franklin county mountains.

Exile Returns to France.

Paris, Nov. 8.—Paul DeRoulede the exiled founder of the league of patriots, crossed the French frontier today on his way to Paris as the result of the recent amnesty law. He was met by a number of friends who congratulated him. His arrival in the city of Paris tomorrow will be the occasion of a notable demonstration.

Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCullum & Co.

TRIPLE MURDERER SUICIDES.

Police Surround House in Which He Resided and Man Kills Himself.

San Francisco, Nov. 8.—Milton Franklin Andrews and his consort, Nulda Petree, who fled after brutally attacking and robbing William Ellis, a horseman at Berkely, whom they had lured from Australia, were found dead last night in their rooms at James Meagher's house at 748 McAllister St. The police had surrounded the place. Andrews was hidden in a closet when a policeman by a subterfuge entered the room.

Realizing that their hiding place was discovered, the young woman persuaded the police to leave the room. She then locked th edoor and immediately afterward two shots were heard in the apartment.

The police broke in and the bodies of the fugitives with bullet holes in their heads were found. Andrew's pistol was clutched in his right hand, where he was lying on the floor. The woman rested on a bed as if in sleep.

Andrews was charged with the murder of Eugene Bosworth, at New Britain, Conn., with the slaying of a woman at Troy, N. Y., and with killing Bessie Bouton at Colorado Springs. He returned with Ellis from Australia last month.

No Reason For Husband's Act.

Washington, Nov. 8—Mrs. Washington J. Quigle, wife of the secretary of Thomas F. Walsh, who was shot by her husband last night, is somewhat improved today and the surgeons at the Emergency hospital expressed the opinion that she has an even chance for recovery. She insists that she knows of no reason why her husband should have killed himself or attempted to kill her.

Situation at New Orleans.

New Orleans, Nov. 8.—Up to noon today there was one new case of yellow fever and one death reported by the board of health. Both were the same person, the case not having been previously reported. Dr. Brady returned here today from Calcasieu, reporting three cases at Bon Ami and six at DeRidder. All are recovering. There was a marked decline in the temperature today.

Urge Enforcement of Sunday Laws.

Chicago, Nov. 8.—The pastors of the Congregational churches of Chicago, issued an ultimatum to Mayor Dunne yesterday, urging him to enforce the Sunday closing laws. The fifty ministers were present at a meeting voted almost unanimously for the memorial which was intended to place the city's chief executive on record for or against law enforcement.

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

THE DAILY SUN, 10c a Week.

Eight-Hour Law Is Upheld.

Washington, Nov. 8.—The supreme court of the United States had affirmed the decision of the supreme court of the state of Missouri in the case of Cantwell and others versus Missouri. The case involved the validity of the Missouri state law fixing eight hours as the length of a day's work in mines. Cantwell, who was the superintendent of a mine, held the workmen for a longer period and was proceeded against in the state courts. The supreme court of the state upheld the law. Chief Justice Fuller announced the court's decision today, but he did not deliver a written opinion in the case.

Wife Murderer Captured.

Raleigh, N. C., Nov. 8.—Governor Glenn is notified of the capture of John Huffman, wife murderer, in Wilkes county, at his daughter's home. The governor orders the execution at Williamston Dec. 2, of Preston Daniels, who last June mburdered another negro on an excursion train. Burton Jarrett and Grafield Hicks, negroes, were brought here by the governor's orders from Warrenton to prevent lynching for the murder of a white framer named King, by cutting his throat. Each charges the other with the crime.

Four Killed in Wreck.

Syracuse, N. Y., Nov. 8.—A passenger train on the Rome, Watertown and Ogdensburg railroad, bound for Watertown, collided today head-on with a locomotive drawing two freight cars, near Liverpool, 6 miles from here. Four men were killed and one seriously hurt. Milton F. Toms, of Lindenville, a mail clerk, is one of the men killed. The other dead were members of the engine crew. No passengers were hurt.

Killed Man For Revenge.

Helena, Mont., Nov. 8.—H. Ray E. W. Taylor and A. J. Hienke, prominent business men of Lewistown, were arrested yesterday charged with the murder last August of Samuel Studsinski, who conducted a jewelry store in Lewistown. A card written in the blood of the murdered man was pinned to the body when found indicating that the act was one of revenge

Widow Awardeded Large Damages.

Paducah, Ky., Nov. 8.—Two years ago Pink Head, a prominent citizen, was assassinated in his yard in Hickman county, by Charles Hodge. Mrs. Pink Head sued Hodge for $20,000 damage for being responsible for her husband's assassination. Today the jury gave her $15,000. Hodge was never prosecuted criminally for the alleged offense.

Herb W. Edwards Injured.

Herb W. Edwards of Des Moines, Iowa, got a fall on an icy walk last winter, spraining his wrist and bruising his knees. "The next day," he says, "they were so sore and stiff I was afraid I would have to stay in bed, but I rubbed them well with Chamberlain's Pain Balm, and after a few applications all soreness had disappeared. For sale by all druggists.

The Transvaal Climate.

One peculiarity of the Transvaal climate is that while being very healthy it yet has the effect of making people appear far older than they really are. The rarefied air is popularly supposed to be responsible for this. An Englishwoman of thirty-five who has lived in the country districts for any lengthy period invariably appears far older than she really is.—Womanhood.

Answered.

"Why are you yawning?" inquired the landlady of little Johnny at the table.

"I always yawn when I'm hungry," was the reply.

"But what do you do when you are sleepy?"

"Go to bed."

THE SOLDIER OF '76.

He Was Not a Military Figure, but He Was Effective.

General John Thomas was the commander of the provincial troops when they occupied South Boston. He was an intimate friend of Washington and was regarded as one of the best officers of the little army. His military career, however, was short, for in 1776 he died of smallpox.

The post which Thomas was ordered to occupy was at the top of a Roxbury hill, the approach to which was plainly visible from Boston. The general's troops consisted of only 700 men, but when the army took up its position he marched the line round and round the hill, multiplying many times the apparent size of the regiment.

In some respects the scornful appellation of "rabble" given by the British to Thomas' division was appropriate to the provincial troops stationed on the hilltop. The social equality and familiarity which existed at home between the officers and privates continued in camp.

"Bill," said a captain to a private, "go and bring a pail of water for your mess."

"I shan't," responded Bill. "It's your turn now. I got the last one."

The appearance of the troops was against them also from a military point of view. The soldier of '76 was a grimy figure, his head wrapped in an old bandanna handkerchief, pipe between teeth, leather breeches, yarn stockings and hobnailed shoes, but it was a company of these uncouth soldiers who fortified Dorchester heights in a single night to the wonder and admiration of the British army.

A STORY OF HAWKINS.

One Incident in the Career of the English Painter.

The English painter Hawkins at twenty years of age was the center of acclamation. But at the close of his life he is described as having lived in a fool's paradise, content with himself and fattening on the empty praise he had won. This mischief lay in the fact that he was an excellent boon companion. On one occasion he was asked by a Mr. Ackers, a member of parliament, to accompany him and one or two others to Paris, the host promising to give him a holiday and pay all his expenses.

Hawkins objected. "I'm busy on a picture," said he, "and I want to finish it for exhibition."

"Never mind that," returned Ackers. "Bring it with you and paint it there." Hawkins yielded, as he always did in the end, and the picture was put into the carriage.

As they were driving along Mr. Ackers asked to be allowed to look at it, and when it was uncovered he said, "What do you want for it?"

"I shall want £50 for it when it's finished," answered Hawkins.

"Very well," returned the member of parliament. "I'll give it to you, and I'll finish the picture for you too." With that he kicked a hole through the canvas, and the artist was thus set free for an undisturbed jollification.

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." J. W. McCollum & Co.

A Troublesome Creditor.

The poet Clement Marot, being in very straitened circumstances, went to the king and said, "I have come to lay before your majesty a complaint against one of my creditors whose claims I have satisfied over and over again, and yet he persists in dunning and harassing me at every opportunity."

"Who is the scoundrel?" the king inquired.

"My stomach, sire. Though I have satisfied its wants time without number, it never ceases to torment, and I am utterly incapable of meeting its demands."

The king was pleased with the joke and allowed the poet a pension on the spot.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, manager of The Republican of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists. Price 50c.

Keep Your Head Clear

And your stomach free from indigestion if you would be happy with your family and your fellow-man.

The surest thing on earth to get a man's system "out of whack" is heavy, soggy bread, which is caused by several reasons: First, the material may not be good; second, the cooking may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made, and in many instances it is so much more palatable.

BIRD MIGRATION.

The Stars May Guide the Winged Travelers by Night.

The migration of birds by daylight has received a great deal of attention on the part of naturalists and bird lovers generally, but the passage of the feathered creatures during the night is still a matter for considerable speculation and theorizing.

That birds do travel by night is not disputed. Then how do they guide themselves over the long stretches of land and sea which separate their summer and winter homes? In the darkness they can scarcely distinguish those figurative milestones which are said to serve as guides by day. Their vision may be keen, but it is difficult to believe that the birds do "go by" those same guides at night, especially as they are often between two and three miles aloft, says Home Notes.

The supposition is that these creatures, like human mariners, shape their course by the stars. Whether they can distinguish the various planets or constellations or how they do it can at present only be conjectured, but the theory receives support from the fact that when the stars are obscured by high clouds the birds come nearer to earth and appear to be disconcerted. The thought that these small beings can fly through space and have their routes mapped out by the innumerable central bodies that stud the universe is full of significance.

ACTORS IN CHINA.

They Get High Salaries and Are Able to Live In Luxury.

China is the actor's paradise. There are thousands of actors in the empire, and the "top notchers" earn considerably more in proportion than actors even in this country of high salaries. A native actor will earn, if he is a first rate man, as high as $1,800 a year, and while this money is insignificant compared to our princely pay lists it will procure comforts and luxuries to a native in China that could not be duplicated here for fifty times the amount. There is a national actors' club with 30,000 life members, and there is a special god in the temples to whom all good Chinese Thespians pray. It is very difficult to acquire the title of "actor" in China. The pupil is obliged to study three years as a super, and one more year is required to give him the finishing touch. The pupil must learn by heart a repertory of about fifty different plays, and the rest of his life is spent in acting these plays without the slightest chance of ever being permitted to learn new ones. The idea is that an "actor," as such, must not condescend to learn, which is fitting only to an apprentice, but an actor may without injury to his dignity teach worthy pupils what he himself learned as a pupil.—Chicago Chronicle.

THE STEAM RADIATOR.

If It Doesn't Give Enough Heat Turn the Fan on It.

There are a good many rooms where the radiator is either too small or the steam pressure is too low to maintain a comfortable temperature in severe weather. If the tenant is enjoying the station electric lighting service the matter can easily be remedied. Take an electric fan and set it where it will blow against a large part of the radiator's surface. Turn it on at a low speed or at high if necessary, and your cold room will soon be thoroughly warmed. The philosophy of the thing is that steam at a low pressure carries much less latent heat than steam at a high pressure and therefore warms the radiator so poorly that only a slight draft of air rises around the pipes, and condensation is slow. With the fan in operation there is a forced draft against the radiator that conducts a great deal more heat away from the iron, cooling it so that much condensation of steam occurs inside it. The heat thus snatched from the reluctant radiator is held in the circulating atmosphere of the room, which is soon changed from cold to warm at a trifling cost for electric energy.—Pittsburg Press.

The Man With the Grievance.

I suppose that there never was such a flourishing time as the present for men with a grievance. The daily and weekly journals eagerly welcome letters complaining of the increase of corpulence, the pitfalls of the split infinitive, the prevalence of the red tie among the lower middle class, the carelessness of the younger generation in dotting its i's and other equally dreadful abuses which do not matter one way or another. If one were not an incorrigible optimist one would be inclined to agree with the writers of these letters, who are for the most part men of enforced leisure and idle hands, that England is rapidly about to decline and fall.—London World.

Use For the Synonym.

Teacher—What is a synonym? Pupil—A word that has the same meaning as another word. Teacher—And why does our language possess synonyms? Pupil—So you can use one when you don't know how to spell the other one.—Exchange.

AN IRISH TYPE.

The Placid, Well Born Girl of the Little Green Isle.

"The Irishwomen never worry," said a woman who has mixed much in the upper circles of the little green isle; "therefore they preserve their youth better than the women of any other nation. A peculiar type of personality has been left in Ireland. England and America have drained off the progressive and hustling—England from the upper classes, America from the lower. Those who are left are of a placid, contented type, from whom the restlessness of present day civilization seems far removed. The dullness of the life led by the average well born Irish girl would be pathetic if it were not that she seems to thrive so well on it. Year after year she follows the same monotonous round, meeting the same people at tennis in summer or hockey matches in winter. If her home is in a hunting district, no matter at how low an ebb the family finances may be, they will manage to give her a good mount, but for the girls who do not hunt the long, wet winter, with few neighbors and few books, passes almost as drearily as in a mediaeval castle."—New York Tribune.

St. Fiacre.

There is a pretty bit of history in the name of that vehicle, the fiacre. St. Fiacre was an Irishman of noble birth, who went over to France in the seventh century and lived as a hermit in a forest near Meaux. His popularity became very great in the France of later centuries. When Sauvage started public hackney coaches in Paris in 1640 he found the most convenient center for them to be an inn in the Rue St. Martin, named Hotel St. Fiacre and adorned with an image of the saint; hence "fiacre."

Now, Then.

"Do you mean to say this child fell from the third story and landed on her feet?"

"Yes," replied the policeman. "I was an eyewitness."

"That settles it!" replied the neighbor. "I always said her mother was a cat."—Detroit Free Press.

His Mission.

Old Mortality was freshening up the illegible inscriptions on the ancient tombstones.

"I merely wish to show," he explained to the curious bystanders, "that there is nothing essentially new in modern fiction."—Chicago Tribune.

His Wife's Will.

"What makes Peck look so worried?"

"He's been contesting his wife's will."

"Why, I didn't know his wife was dead."

"That's just it; she isn't."—Cleveland Leader.

A tea plant, which was raised on the Robertson place near Newnan's lake, and which was brought to this city for transportation to the State Fair yesterday, created a great deal of curiosity and attention, as it was displayed at the store of W. S. Dorsey & Co. The plant stood about six feet high, and was well supplied with leaves. A number—in fact ninety-nine per cent—of those who examined the bush had never seen a tea plant before, and naturally it was quite a curiosity.

FALL ELECTIONS VERY EXCITING

McClellan Elected Mayor of New York and Jerome Wins Out.

REPUBLICAN BOSSES BEATEN

Pennsylvania Breaks Away From Ring Rule—Ohio Elects a Democratic Governor—Several Cities Have Democratic Mayors.

Special to The Gainesville Sun:

New York, Nov. 8.—The latest returns make the election of McClellan safe with a plurality of 3,500. The friends of Hearst are making threats of a contest. The official figures assure the election of Jerome for district attorney by a narrow margin.

New York State.

Buffalo, Nov. 8.—J. N. Adams, Democrat, was elected mayor by 9,000 majority.

Albany, Nov. 8.—Chas. H. Gans, Republican, elected mayor for third term by 6,000 majority.

Illinois.

Chicago, Nov. 8—The Republicans elected four judges of the supreme court and entire ticket, except one Democrat for sanitary trustee.

Ohio.

Cincinnati, Nov 8—Dempsey, Democrat, is elected mayor and State will no doubt elect Pattison, Democrat, for governor by small majority.

Pennsylvania.

Philadelphia, Nov. 8—The Republican ring has been routed by the reformers. The ticket is elected by 20,000. Wm. H. Berry is elected State treasurer. Mayor Weaver says the city of Philadelphia is redeemed. The wildest excitement prevailed all day. Berry was nominated as a Democrat and endorsed by the Independents and others.

Indiana.

Indianapolis, Nov. 8.—The Democrats win in 20 counties in the State. Ten municipalities have been carried against the Republicans.

The cities of Richmond and Terre Haute elect Democratic mayors.

Kentucky.

Louisville, Nov. 8—This city will have a Democratic mayor and the Legislature will be Democatic.

Notes.

Union Labor Candidate Eugene Schmitz was elected mayor of San Francisco, Cal.

Governor George H. Utter, Republican, is elected in Rhode Island. Republican gains in the Legislature.

New Jersey has gone Republican against the machine, and the hope for a Democrat to succeed United States Senator J. P. Dryden in 1907 are blasted.

Ex-Speaker Henderson Very Sick.

Dubuque, Iowa, Nov. 8—Dr. John C. Hancock issued today the following statement regarding the illness of ex-Speaker Henderson: "There is no particular change in the condition of the patient. He has been slightly delirious at times, but no different than heretofore. Death is not imminent unless a hemorrhage develops."

Champion of Woman's Rights Dies.

London, Nov. 8—Lady Florence Dixie, the well known writer, explorer and champion of woman's rights, who acted as war correspondent for a London paper during the Boer war, died today at her home Glen Stuart, Annan, Dumfrieshire, Scotland.

Alexander's Condition Improved.

New York, Nov. 8.—The condition of James W. Alexander, former president of the Equitable Life Assurance society, who is ill in a sanitarium in Deerfield, Mass., last night had shown sufficient improvement to encourage his physicians.

SANTA FE NEWS.

The Cotton Crop is Interfering With Education of Children.

Santa Fe, Nov. 7.—Here we are yet, scraping out the last of the crop of fourteen cent cotton, and getting ready to grind the sugarcane crop. The farmers claim, as usual, a short crop. They seem to be determined to hold cotton for better prices this year, but to one of the experience that the writer has had in farming, the better plan for the future would be to plant less, for unless there is a change from the present system of planting a large crop of cotton and depend on their children who ought to be in school to pick it, we will in a few years turn out the largest crop of ignorant children that any country can be cursed with. Look at the present average of the country schools today, and then ask the cause. The answer is that we can't hire cotton pickers and our children will have to stay out of school to pick the cotton. The result will be as stated above. Owing to the financial condition of our county our schools have had this year shorter terms, but by enactment of the last Legislature any rural school that makes an average of 80 per cent can get two months more. Ask why the schools are not availing themselves of that most liberal offer? The answer is "too much cotton."

The Santa Fe public school is getting along nicely under the able and most efficient management of Prof. J. R. Durrance as principal and Miss Georgia Martin as assistant. While the school is in perfect harmony, its attendance is not as good as desired, owing to the same old story of too much cotton to gather.

R. H. Holstein, the boss watermelon grower of this section, is expecting to move to Hague soon, where he has rented a large body of land. He will plant largely in melons.

COUNTY LICENSES.

Collector Dickinson Says They Are Coming in Slow.

Notwithstanding that the time expired for the issuing of business tax, or more commonly known as licenses for doing business, on October 1 for the current year, Collector Dickinson complains that they are being taken up very slowly. A large per centage of business concerns in the county, many of which are located in Gainesville, are continuing without the license as required by law.

The law requires that every business or firm transacting business of any kind in the county are subject to this tax, which shall be issued on October 1st of each year. The law also compels the collector to secure from such firms the amount of the license due. Collector Dickinson states that, inasmuch as the fall term of the circuit court will convene in this city the coming week, and he must make returns to the grand jury of all persons or firms doing business in the county without a license, he suggests immediate settlement to those delinquent, with the warning that if their name goes in with the report they are subject to indictment, which means, not only a great deal of annoyance, but a largely increased financial necessity, as the costs of the court will be involved.

Marriage at Waldo.

There was a pretty marriage at the Baptist church, Waldo, at 11 o'clock Tuesday morning, when John Golman and Miss Leola Green took the solemn vow which bound them together for the remainder of their lives.

In the presence of a large number of friends of the contracting parties Rev. Mr. Farmer, pastor of the church, performed the ceremony in a beautiful and impressive manner.

The contracting parties are well known and popular in Waldo. The groom is employed as a cigar maker by the El Toney Cigar Company. The bride is the accomplished daughter of Mrs. E. N. Green.

The bridal party left on the afternoon train for Jacksonville, where they will be the guests of the groom's mother for a few days, when they will return to Waldo, their future home. Friends extend congratulations.

COUNTY FATHERS HAVE GOOD MEETING

With Renewed Confidence in State Fair Exhibit, Give More.

ALACHUA WILL BE THERE

With as Fine and Diversified Exhibit as Was Ever Seen at Any State Fair, and Chances are Good That We Will be Awarded Prize.

The regular monthly meeting of the Board of County Commissioners was held Tuesday, Chairman John G. Dampier and Commissioners Pedrick, Osteen, Paulling and Townsend being present.

There was a great deal of important business transacted at this meeting, a full report of which will be taken from the minute book as soon as same is recorded.

Among the most important business was the awarding of an additional $250, making a total of $750, for use in making a display at the State Fair. Vice-President Burtz, representing the Florida Mid-Winter State Fair Association, and Manager of Exhibits Tench of the Alachua County Fair Association, appeared before the board and stated that all arrangements were completed, and that five carloads of exhibits had been collected and would be transported to Tampa, to show what inducements Alachua county offered to the homeseeker in agriculture, horticulture, manufacturing and mining. An additional appropriation of $250 was asked and readily granted, as the commissioners appreciated the work of Manager Tench in making the collection, and appreciated also the great advertisement and benefit which might be derived from this exhibit.

A large number of bills for various purposes were read, found correct, and ordered paid. Of this amount a considerable appropriation was for road work.

Read the advertisement, for it will prove a money-saver.

BUCKMAN BILL IN COURTS.

Quo Warranto Proceedings Allowed Against Board of Control.

A special from Tallahassee under date of November 7th, says:

"The Supreme Court today granted the petition of the State of Florida on relation of the Attorney-General et al. to bring quo warranto proceedings against members of the Board of Control to show by what authority they exercise the rights as officials of such board. The writ is made returnable November 23. The petition was presented to the court by Judge Arch Henry of Lake City."

Mr. Callison in Tampa.

N. A. Callison, general manager of the Spring Park Stock Farms near Gainesville, is in the city and is making arrangements with Dr. N. B. Rhodes for the accommodation at the fair grounds of the fine exhibit of live stock which his company will ship to the State Fair. So large is the number of their entries that they will be able to show in fifteen different classes, and among this number will be some Hereford's, of which the farm makes a specialty, that took prizes at the World's Fair at St. Louis.—Tampa Daily Tampa, November 7th.

MELROSE MELANGE.

School Opened—Delightful Party. Many Personal Paragraphs.

Melrose, Nov. 8.—The Melrose school term was opened yesterday by Prof. R. L. Rogers of West Lake, with an attendance of 33 scholars. Hon. W. E. Baker, one of the trustees, with a few appropriate remarks welcomed the teacher and presented him to the patrons and children. Prof. Rogers replied with a short speech and declared the school open for business.

An interesting exhibition of fancy shooting was given by the traveling agent of the Western Cartridge Company, on Thursday forenoon.

Mrs. E. M. King has returned from her annual visit North.

Among the visitors in town during the past week were H. Grimes of Jacksonville and A. L. McRae and Miss Bessie McRae of Evinston.

Dr. P D Hicks of Waldo is in town on professional business.

Miss Nettie Huffman was baptized at the foot of Grand street on Thursday forenoon by Rev. B. R. Moseley, as a member of the Baptist church.

A branch of the Epworth League was organized here Sunday evening with the following officers: Mrs T. J. Sistrunk, president; Miss May Barnett, vice-president; Miss S. L. Mullin, secretary; Miss Cora Lyons, corresponding secretary; Miss L. Jackson, treasurer. The first meeting will be held on the 3rd Sunday in November. So far 15 members are enrolled.

On Friday evening, November 3rd, Miss Flora Morris entertained quite a number of her friends at cards, the principal game being the new way to play "set-back." Eating fudge was also another interesting feature. Miss Flora certainly understands the art when it comes to entertaining her friends. It was vouched for by all that the evening was more than enjoyed. At a late hour all bade her good night, returning home with the happy thoughts mingling in their minds that another pleasant evening had been spent at Miss Flora's home.

The young people of Melrose anticipate having a picnic at Earleton on Thanksgiving Day, going over on the steamer Alert as she goes to Waldo and coming back on her return trip. If our picnic materializes Capt. Weeks will extend free passage to his host of young friends.

Ernest Earl Weeks has been visiting his brother, Captain F. A. Weeks, for a few days. He returns home Tuesday.

WILL MAKE NO EXHIBIT.

Dutton & Co. Will Have No Display at Great State Fair.

Hon. Walter G. Robinson, manager of the cotton department of H. F. Dutton & Co., stated Wednesday that, after due consideration, his firm had decided to make no exhibit of Sea Island cotton at the State Fair, for the reason that an exhibit from this firm might seem unfair to the grower who produced the same.

"While we would like very much to see a fine exhibit of long staple," remarked Mr. Robinson, "we hardly feel inclined; we are not growers, and it is to the grower that honor belongs."

There will be several bales of cotton on display at the Fair, however, and arrangements have been made to operate a cotton gin upon the grounds.

A GENEROUS OFFER.

McConnell Library Association Offers a Novel Proposition.

The McConnell Library Association will present at the opera house, on Thursday night, November 16th, their best attraction, Mr. Earl Ward Pearce, [illegible] lecturer, entertainer and character delineator.

The McConnell Library Association is a chartered educational institution, giving libraries free through popular lecture courses, and has offered to donate thirty books from their book list to the University High and Graded School, if their part of the receipts amount to as much as $30, after paying hotel expenses.

It is hoped that Mr. Pearce will be greeted with a large audience, so that our school will be sure to receive the benefit of this library offer.

ANOTHER BIG NAVAL STORES PLANT

Phifer & Waits Have Started New Business at Grove Park.

THE TIMBER IS ALL FINE

Firm Has Secured Several Thousand Acres, but Will Begin With Fifteen Crops, to be Increased in Judgment of Operators.

Another big naval stores manufacturing establishment has been started in this county. The farm is situated at Grove Park, and the promoters are W. B. Phifer of this city and S. F. Waits of Grove Park. The firm will be known as Phifer & Waits.

While the firm has secured several thousand acres of fine round timber, operations will begin with only fifteen crops, or 150,000 boxes, which alone being virgin timber, will make a big yield. From time to time they propose to increase the number of crops.

Both gentlemen are full of ambition and energy, and there is ample capital behind the concern to make a big financial success in its operation and yield. Mr. Waits will be the manager.

REMAINS TO BE HELD.

These Are Instructions From North Concerning Dr. Bouton's Body.

A telegram of instruction in regard to the remains of Dr. Geo. B. Bouton of Connecticut, who died in this city Monday, has been received from J. G. Hyatt, P. N. G., of "Our Brothers" Lodge, I. O. O. F., Norwalk, Conn. The telegram requests that the body be held, and that a representative from that lodge would be sent here immediately. As has been stated before, Dr. Bouton, who has been a regular winter visitor to Florida for several years, was a man of considerable wealth, a life insurance policy for $5,000 and other valuable papers having been found upon his person at the time of his death.

GROOM OF A MONTH SUICIDES.

Dead Man Received Letter Threatening His Life.

Vienna, Ga., Nov. 8.—Howard Owen, residing near Lilly, this county, suicided in bed at his home by shooting himself through the heart. He had been married one month to a day.

The deed was evidently premeditated and deliberate. The family were not in the room at the time but hearing the report of the pistol, his wife ran in and threw a bucket of water on him to quench the fire which was burning his clothing. The deceased was a member of one of the most prominent families of Dooly county, and stood high.

It is stated that he was held up a few nights previous in the woods and robbed. The morning he suicided he found his pistol which had been taken from him by the robbers, and a skull and cross-bones and a note reading: "Prepare for death," or words to that effect. "Your name is Dennis."

These he is said to have found under his front door steps.

Woman's Death a Mystery.

New York, Nov. 8.—Professor Meeker, chief pathologist and chemist, of Philadelphia, with three attaches of the coroner's office in that city, called on Coroner Sholer with a view of obtaining the organs from the body of Mrs. Todd which they intend to analyze for the purpose of discovering poison. This was done at the instance of the district attorney of Philadelphia, who desired to complete his evidence in the case. A portion of the stomach will be taken to Philadelphia and the rest will be retained here for examination by the local authorities. The case fairly bristles with suspicion, and the firm conviction is that future developments will put it side by side with the Patrick case in depth of interest and quality of crime.

Pensacola has about wound up the fever and will now prepare for the Mardi Gras festivities.

CONSTABLE ZETROUER STRUCK BIG THING

Arrested Prisoner For Whom Was Offered $150 Reward.

THE CAPTURE WAS EASY

Knew Negro by Description, Found Him on Railroad Train, Advanced and Called Him by Name—A Clever Piece of Work Which Ended Well.

To Constable Arch Zetrouer of Rochelle belongs the credit of apprehending and arresting one of the most notorious criminals known to the Georgia authorities in recent years, with the exception of the Rawlings of Valdosta.

Constable Zetrouer, who is always on the alert in his official capacity, received a circular a few days ago instructing him to watch out for Tom Kelley, wanted in Camden county, Ga., upon a charge of whipping his child, a small boy, so severely until he died. The charge was murder, and the authorities of Camden county were so wrought up over the matter that a reward of $100 was offered by the State and $50 cash by indignant citizens of the community.

Upon entering the train Saturday Constable Zetrouer saw the man described by the circular, and recognized him at once. He was cautious, however, as he realized that it would not be prudent to work the scheme in a reckless manner. After a moment's hesitation, when he had collected his thoughts and remembered the name, he approached his man.

"Hello, Kelley; what are you doing away down here?" remarked the officer.

"Boss, you sho' is right 'bout de name, but I doan' b'lieve I quite knows yer," replied the negro.

"You don't know me?" said the constable. "Why, that is strange. Don't you remember me up in Camden county, when I used to bring watermelons to town?"

"I sho' do now," replied the darkey, with a chuckle, but about that time Constable Zetrouer clasped a pair of handcuffs on the man and took him into custody.

The authorities of Camden county were notified, and Monday Deputy Sheriff Bailey arrived and took charge of the prisoner, paying the $50 reward. In the event that Kelley is convicted he will receive also the $100 offered by the State.

REAL ESTATE IS LIVELY.

Manager Voyle of Alachua Abstract Co. Enjoying Fine Business

"You may say that real estate is lively," remarked Manager E. E. Voyle of the Abstract and Realty Company to a reporter Monday, when asked about the state of the market. "The demand is really not impulsive, but is good and steady, and if a fellow has a piece of land and wants to sell he had better not offer an extra close price if he does not want to sell, for he will find a buyer mighty quick. There is plenty of money laying idle for purchase of land, and desirable real estate may be sold immediately upon placing the property on the market."

Mr. Voyle states that desirable houses are in demand at good rental rates. "It is almost impossible, with the influx of people to Gainesville, to secure a desirable house at any figure," he said, "and the fellow who gets a decent house at anywhere near a reasonable price is in big luck."

MR. J. C. BALIS AND DAUGHTERS.
Nov. 6, 1905.

"I Thank the Lord!"

Cried Hannah Plant of Little Rock, Ark., "for the relief I got from Bucklen's Arnica Salve. It cured my fearful running sores, which nothing else would heal, and from which I had suffered for 5 years." It is a marvelous healer for cuts, burns and wounds. Guaranteed at all drug stores; 25c.

A QUESTION OF COST.

In any number of stores you'll see various preparations of cod liver oil at as many different prices. You'll wonder, perhaps, why Scott's Emulsion costs more than some other kind in as large a bottle. Hearing only one side of the question you may be led into buying the "just as good as Scott's" at the lower price. That's false economy. Scott's Emulsion costs more because its more expensive to make. Every ingredient is tested and guaranteed of the purest quality. No adulteration, no shaving of quality. There's no economy in bargain medicine. If you can afford to experiment with your health, substitutes may satisfy you. We take it, however, that you want a pure preparation, a reliable remedy and something that's going to help you. That's what you get in Scott's Emulsion. Thirty years the standard.

FUNERAL OF MRS. YOUNG.

Was Laid to Rest Sunday Afternoon. Many Friends Present.

The funeral of the late Mrs. Kate B. Young, the sad death of whom occurred in Savannah last Friday, was held from the First Presbyterian Church in this city at 3:45 o'clock Sunday afternoon, the interment being in Evergreen cemetery.

It was originally intended to hold services immediately after the arrival of the train from Savannah at 1:45 o'clock in the afternoon, but connection was not made at Rochelle, and the train was late.

The services were conducted by Rev. Thos. P. Hay, and were largely attended by friends of the deceased who had gathered to pay their last respects to their departed friend. A number accompanied the remains to the cemetery.

The floral decorations were numerous and fragrant. Deceased lived for many years in Gainesville, and her friends were desirous of expressing in this tender manner their affection.

To the bereaved relatives The Sun, with other friends, extends sympathy.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price 75c per bottle.

Take Hall's Family Pills for constipation.

A Heavy Train.

The Sun contained a notice several weeks ago that probably the heaviest train ever brought into Gainesville was one which came over the Seaboard Early Bird, containing fifty-two cars; but this record has been beaten, as the Early Bird Monday was a "corker," being composed of seventy-two cars and caboose. When the engines were standing at the depot the end of the train stretched across Alachua avenue, East Gainesville, which is fully a mile from the station.

It required a "double header" to handle this train, as the cars were all loaded.

Sluggish Liver a Foe to Ambition.

You cannot accomplish very much if your liver is inactive, as you feel dull, your eyes are heavy and slight exertion exhausts you. Orino Laxative Fruit Syrup stimulates the liver and bowels and makes you feel bright and active. Orino Laxative Fruit Syrup does not nauseate or gripe and very pleasant to take. Orino is more effective than pills or ordinary cathartics. Refuse substitutes. J. W. McCollum & Co.

DEATH OF DR. BOUTON.

An Old Odd Fellow and Knight Templar Passes Away.

Dr. George B. Bouton, aged upwards of 80 years, died at 3 p. m. yesterday at the Odd Fellows' Sanitarium in this city, after a short illness.

Dr. Bouton came here from Connecticut a few weeks ago, and was obliged to seek other quarters until the Sanitarium opened for guests November 1. He suffered a stroke of paralysis soon after, and was unconscious until the end came. Dr. Bouton had spent two winters here, and was confined to his room most of the time. He was a member of the Odd Fellows' Lodge at Westport, Conn., and was made a Knight Templar in New Haven, Conn., in 1852.

He was a man of considerable means, and among his papers on his person was an insurance policy in the New York Mutual Life and papers to show that he was the possessor of considerable wealth. His lodge has been notified of his death and as to what disposition will be made of the remains. It is not known where his relatives reside.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, manager of The Republican of Leavensworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five (5) physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists. Price 50c.

ELDERLY PEOPLE MARRY.

Mrs. Boulware and J. B. Hutchinson Were Wedded at Hawthorn.

A telegram to The Florida Times-Union from Hawthorn, under date of November 5th, says:

"Mrs. Boulware, mother of Frank Ritter, was married today to J. B. Hutchinson of Gainesville. The bride is an estimable lady of 63 and the groom a gentleman of 53. The marriage ceremony was held at the residence of Frank Ritter, son of the bride.

"The happy couple left immediately after the ceremony for their home in Gainesville."

Pirating Foley's Honey and Tar.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

THE YELLOW FEVER.

Is Now Nearly All Wiped Out of New Orleans and Pensacola.

Pensacola, Nov. 6.—No new cases, no deaths, is the report here up to noon today. Nineteen are still under treatment, and all of them are said to be doing nicely.

At New Orleans.

New Orleans, Nov. 6.—There is not a new case of yellow fever in this city today and only one case was reported yesterday, with one death. There are only five cases under treatment.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. J. W. McCollum & Co.

PUBLIC LIBRARY FOR GAINESVILLE

Enthusiastic Meeting Held at the Court House Tuesday Night.

MEETING WAS WELL ATTENDED

Association Organized by the Election of Officers—Liberal Offer by the Twentieth Century Club Sustained. An Enthusiastic Meeting.

In pursuance to call, a large number of representative citizens, ladies and gentlemen, met at the court house Tuesday evening for the purpose of organizing a public library association.

The meeting was called to order by Prof. W. N. Sheats, who explained its purpose. Rev. Thos. P. Hay was present, and in behalf of the Twentieth Century Club stated that the club, which has been maintaining a club library, was willing to donate to the venture, in order to assist in the organization of a public library, its complete library, comprising between 300 to 400 volumes of choice literature.

The offer was accepted, and the meeting proceeded to organize a public library society by electing the following officers: President, Prof. Tom F. McBeath; vice-presidents, Rev. Thos. P. Hay, Rev. S. B. Rogers and Mrs. W. B. Taylor; secretary and treasurer, Miss Gertrude Cushman. The officers will also constitute an executive committee, and were requested to take steps as soon as possible towards the securing of a location and the opening of the library.

A membership committee was appointed as follows: Miss Alice Nichols, Mrs. J. B. Padgett, Miss Lucille Colclough, Mrs. W. M. Dale and Prof. W. N. Sheats.

The meeting was attended with considerable enthusiasm, and there is no doubt but that in a short time Gainesville may boast of a first-class, up-to-date library.

Constipation.

Health is absolutely impossible if constipation be present. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsay, P. M., Bronson, Fla., writes, Feb. 12, 1902: "Having used Herbine, I find it a fine medicine for constipation." 50c a bottle. Sold by W. M. Johnson.

Meeting School Board.

The regular monthly meeting of the Board of Public Instruction was held Tuesday, a full board being present. There was nothing of unusual interest transpiring, only the regular routine work coming before the board.

The board took occasion to compliment Superintendent Dr. J. L. Kelley for the excellent display in educational work which he will have at the State Fair, and stated that they felt sure the result would be gratifying.

The board is comprised of Hons. R. B. Weeks, Hawthorn, chairman; T. A. Doke of Santa Fe and W. J. Martin of Donnie, with Dr. Kelley as secretary.

CUTICURA

Soap, Ointment and Pills the World's Greatest Skin Cures.

PRICE THE SET $1

Complete Treatment for Every Humour, from Pimples to Scrofula.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurement, as in pimples and ringworm; the awful suffering of infants and the anxiety of worn-out parents, as in milk crust, tetter, and salt rheum, all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment, and Pills are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures and humour remedies of the civilized world.

The grandest testimonial that can be offered the Cuticura remedies is their world-wide sale, due to the personal recommendations of those who have used them. From a small beginning in the simplest form, against prejudice and opposition, against monied hosts, countless rivals, and trade indifference, Cuticura remedies have become the greatest curatives of their time, and, in fact, of all time, for nowhere in the history of medicine is to be found another approaching them in popularity and sale. In every clime and with every people they have met with the same reception. The confines of the earth are the only limits to their growth. They have conquered the world.

Sold throughout the world. Cuticura Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60), Ointment, 50c., Soap, 25c. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Boston, 137 Columbus Ave. Potter Drug & Chem. Corp., Sole Proprietors.

FROM GIRLHOOD TO WOMANHOOD

Mothers Should Watch the Development of Their Daughters—Interesting Experiences of Misses Borman and Mills.

Every mother possesses information which is of vital interest to her young daughter.

Too often this is never imparted or is withheld until serious harm has resulted to the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties.

Girls' over-sensitiveness and modesty often puzzle their mothers and baffle physicians, as they so often withhold their confidence from their mothers and conceal the symptoms which ought to be told to their physician at this critical period.

When a girl's thoughts become sluggish, with headache, dizziness or a disposition to sleep, pains in back or lower limbs, eyes dim, desire for solitude; when she is a mystery to herself and friends, her mother should come to her aid, and remember that Lydia E. Pinkham's Vegetable Compound will at this time prepare the system for the coming change, and start the menstrual period in a young girl's life without pain or irregularities.

Hundreds of letters from young girls and from mothers, expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them, have been received by the Lydia E. Pinkham Medicine Co., at Lynn, Mass.

Miss Mills has written the two following letters to Mrs. Pinkham, which will be read with interest:

Dear Mrs. Pinkham:— (First Letter.)

"I am but fifteen years of age, am depressed, have dizzy spells, chills, headache and backache, and as I have heard that you can give helpful advice to girls in my condition, I am writing you."—Myrtle Mills, Oquawka, Ill.

Dear Mrs. Pinkham:— (Second Letter.)

"It is with the feeling of utmost gratitude that I write to you to tell you what your valuable medicine has done for me. When I wrote you in regard to my condition I had consulted several doctors, but they failed to understand my case and I did not receive any benefit from their treatment. I followed your advice, and took Lydia E. Pinkham's Vegetable Compound and am now healthy and well, and all the distressing symptoms which I had at that time have disappeared."—Myrtle Mills, Oquawka, Ill.

Miss Matilda Borman writes Mrs. Pinkham as follows:

Dear Mrs. Pinkham:—

"Before taking Lydia E. Pinkham's Vegetable Compound my monthlies were irregular and painful, and I always had such dreadful headaches.

"But since taking the Compound my headaches have entirely left me, my monthlies are regular, and I am getting strong and well. I am telling all my girl friends what Lydia E. Pinkham's Vegetable Compound has done for me."—Matilda Borman, Farmington, Iowa.

If you know of any young girl who is sick and needs motherly advice, ask her to address Mrs. Pinkham at Lynn, Mass., and tell her every detail of her symptoms, and to keep nothing back. She will receive advice absolutely free, from a source that has no rival in the experience of woman's ills, and it will, if followed, put her on the right road to a strong, healthy and happy womanhood.

Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of cures of female ills of any medicine that the world has ever known. Why don't you try it?

Lydia E. Pinkham's Vegetable Compound Makes Sick Women Well.

WILL MOVE TODAY.

Fair Exhibit From Alachua County Will be Transferred to Tampa.

From Tuesday's Daily Sun.

The exhibits from Alachua county which will go to show at the State Fair "what we are made of" will be packed by Manager Tench, and billed today for the South Florida City, and will be followed by Manager Tench, who will have everything in readiness for the opening of the Fair on the 15th inst.

Manager Tench states that he will have five carloads of diversified exhibits from this county, not including the live stock exhibit, which will require two or three cars more. The exhibit which Manager Tench has gotten together is one of the finest that could have been secured anywhere. It comprises agriculture, horticulture, manufacturing and mining, and is bound to attract attention at the great fair, where everything good for Florida will be displayed in the best possible manner.

"I have not really told the people through the press what we really have," remarked Major Tench, "for the reason that it would post the public, and I did not feel like posting the public only through our exhibit. I expect the people have been 'cussing' The Sun for not mentioning more about the Fair and the Alachua county exhibit, but I will take the blame, for I asked The Sun to 'keep mum.'"

Major Tench states that he proposes to make an exhibit at the Fair which will make a creditable showing for Alachua county and its people.

The Hartman orange grove at Sutherland, four years old, will yield 1,600 boxes this season.

The question of the hour: Are you going to the Fair at Tampa?

The opening event of the State Fair at Tampa will be the reception given to the editors and legislators. Governor Broward will be there and the grand ball will be held on the 14th.

Poor Russia may cry "Peace! Peace!" but there is no peace. Scarcely was peace consummated at Portsmouth ere the turmoil of civil war broke opt in St. Petersburg, Moscow, Warsaw and many other cities.

The tornado gets in its work with great regularity in Oklahoma, while in Florida we have not had such a disturbance this season. There may be better States than our own sunny land, but they are not on the map at the present writing.

At a recent meeting of the State Board of Pardons the following resolution was adopted: "Resolved, That from and after this date, whenever an application for pardon has been presented to this board and denied, or judgment withheld, that the said application shall not again be considered by the board unless another notice shall have been given by the applicant or his attorney or agent, that the applicant will again apply for pardon, in accordance with the provisions of law."

A Lake county matron was interviewing a certain denominational college president on the entry of her daughter in school and what she would like her study. "Well, I guess you would like for her to take a course in the gymnasium?" queried the modern learned man. "No, Doctor," the lady replied, "I give her plenty of exercise in the kitchen at home; when I get ready for her to wear bloomers and skin a cat I'll let you know."—Tavares Herald.

The Gainesville Elevator is the name of a new weekly paper that made its appearance in this city last week, to be issued every Thursday. It is a six-column folio, with Dr. F. Prescott Bullock as editor, and is well filled with local and general news, is published by The Elevator Publishing Company, and announces in its salutatory that "no long felt want demands it, nor is it the organ of any political party or creed. No railroads, corporations or monopolies govern it." Robert Holly has charge of the mechanical department, and this is an assurance that his part of the work will be done well. The Sun extends the new-comer a cordial greeting.

Treasurer Knott does not intend that any of the State's money shall get away illegitimately if he can prevent it. He is now having installed a complete system of protection, authorized by the recent Legislature, and constructed by the American Bank Protection Company. It consists of chilled steel lining of the treasury vault containing the two burglar-proof safes, said lining being insulated and electrically connected with three large alarm gongs, governed by time-set machinery and guaranteed to "raise the town" if anyone should attempt an entrance into the vault between the closing and opening hours.—Tallahassee True Democrat.

COTTON GROWERS.

The meeting of the Sea Island cotton growers at Alachua, held on Thursday, Nov. 2nd, was the starting of a movement to perfect an organization that cannot fail to be of benefit to the growers of the long staple. A committee on resolutions was appointed, and the following is the result of their deliberations:

"Resolved, That a meeting of the Sea Island Cotton Growers' Association be held at Valdosta, Ga., at 3 o'clock p. m. on Thursday, Nov. 23d, 1905, for the purpose of forming a consolidated association.

"Resolved, That each county in the bounds of the association, and each county in Georgia growing Sea Island cotton, is hereby requested to organize under the by-laws and resolutions herewith submitted, and to select delegates to meet with us at Valdosta, Ga., on the above date.

"Resolved, That we request the association to empower their delegates to take such steps as they deem best for the benefit of the growers of Sea Island cotton, especially for the purpose of bettering prices.

"Resolved, That we recommend the association that shall be formed at Valdosta, request the agricultural and census department of the United States to report on the Sea Island cotton separately from their regular cotton report."

It was also resolved that the resolutions be printed in the county papers and the daily papers in the Sea Island cotton belt.

A resolution was passed urging the people to hold their cotton until after the Valdosta meeting. Every ginner in the Sea Island belt was requested to write a card to Col. John B. Dell, Valdosta, Ga., on Saturday, Nov. 19th, giving the number of bales of Sea Island cotton ginned up to that date last year, and the number to the same date this year, and the probable number to be ginned in their section this year.

Resolutions were passed thanking the press for the help that they are rendering the down-trodden people throughout the cotton belt; thanking the cotton factories for assisting in holding the cotton, and urging the farmers that are not able to hold their cotton to ship it to the factory and draw as much money on it as they could sell it for in the interior and then be holding the cotton.

OUR SCHOOL SYSTEM.

The raising of the standard of our schools in nearly all cities of the State, by the action of the Buckman bill school law, has been the principal cause of nearly all of them being crowded to overflowing.

Now, we have public schools from which students graduate to the State University without any further preparation, a system as good as any State in the Union, and will have a University that will be a credit to the State, yet some fossils are appealing to the "tax-payers" with alligator tears streaming down their cheeks, and trying to explain to the people that they are being robbed, because their master tells them what they must do. The veil that covers the manly brows of some of the defenders of the injured innocence is of too gauzy a fabric to conceal their brazenness.

Men who fought for the Buckman bill first and last, now have enlisted Hessians to aid them in their nefarious work of trying to ruin because they could not rule. But the man who puts up his filthy gold to tear down what is proving a blessing and relief to the common people will surely get trapped at his game.

There has been no law enacted whereby the State will lose hundreds of thousands of dollars. The poor taxpayers know that. But the poor taxpayer now has an opportunity to let his children get a high school education as well as the rich tax-payers' children. The high school under the Buckman bill is for education, and not for show, and the graduate from the English course of any high school in Florida today will find himself with an education that will enable him to enter any business enterprise in the country, barring the professions.

For shame! To think that some of those who fought so desperately for the Buckman bill, and when their plans came to naught, should in their rage put men at work to destroy the operation of the law.

HELP THE TEACHER.

At school the young girls and boys are under the control of the teacher. The teacher does not desire to have any favorites, and is as anxious to have one learn as another. The teacher has no favorites, but it would be perfectly natural for a teacher to be more kindly toward a scholar that never caused them any trouble than one who is always creating dissension.

If you want to make a young anarchist of your boy, just take sides with him on every question that comes between him and the teacher. When a boy is sure of the support of his parents in every quarrel he has in school, you can rest assured that he will not hesitate to get into trouble, no matter whether he is on the right or wrong side.

The boy who has his every whim indulged at home, goes to school with the expectation of the same treatment, and it is such boys that are often privileged to leave school and grow up in idleness and headed for the downward path that has room enough for the feet to tread to ruin. Let the teacher have full charge of their conduct and we will venture the assertion that few of them will go wrong.

It is best for the parents to try and let the teacher show the scholar what is the best for him, and it will lighten the burden of both teacher and parents and often save the boy.

SUNSTROKES.

"How does it happen that you are on such friendly terms with Mrs. Dash?" "Why at one time I sought her hand and she refused me."

The "early settlers" of this country are those who pay their bills the first time you present it to them.

Reward will be paid to any person who can find one atom of opium, chloral, morphine, cocaine, ether or chloroform in any form in any of Dr. Miles' Remedies.

This reward is offered because certain unscrupulous persons make false statements about these remedies. It is understood that this reward applies only to goods purchased in the open market, which have not been tampered with in any way.

Dr. Miles' remedies cure by their soothing, nourishing, strengthening and invigorating effects upon the nervous system, and not by paralyzing and weakening the nerves as would be the case if these drugs were used.

For this reason Dr. Miles' Anti-Pain Pills are universally considered the best pain remedy

"I have suffered for 25 years with severe pains in my head, heart and back, and have tried everything I could get and could not find any relief until I got a box of Dr. Miles' Anti-Pain Pills. I suffered as long as 12 hours at a time with such severe pains that I feared I would lose my mind. The Anti-Pain Pills gave me relief in from 10 to 20 minutes. I do not have to use Morphine any more. I wish you would publish this so that other sufferers may find relief."

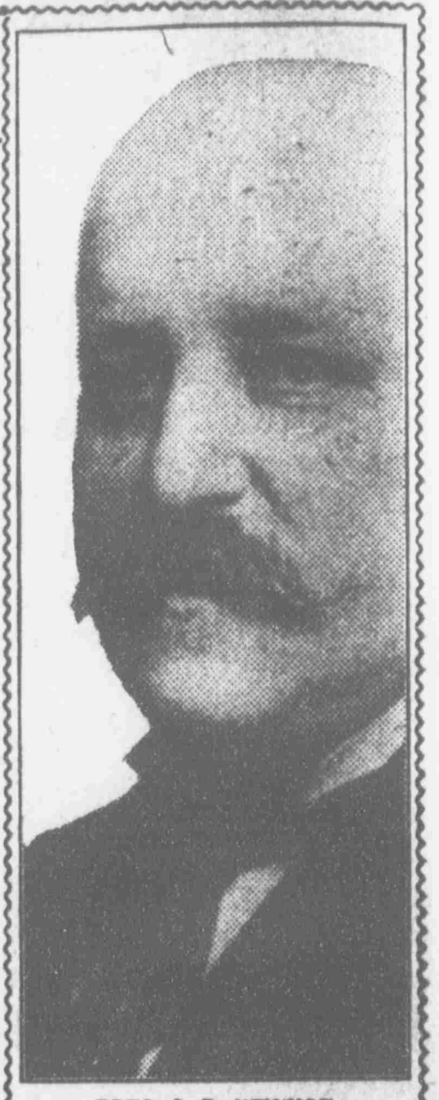
Many Persons Have Catarrh of Kidneys, Or Catarrh of Bladder and Don't Know It.

President Newhof and War Correspondent Richards Were Promptly Cured By Pe-ru-na.

Mr. C. B. Newhof, 10 Delamare street, Albany, N. Y., President Montefiore Club, writes:

"Since my advanced age I find that I have been frequently troubled with urinary ailments. The bladder seemed irritated, and my physician said that it was catarrh caused by a protracted cold which would be difficult to overcome on account of my advanced years. I took Peruna, hardly daring to believe that I would be helped, but I found to my relief that I soon began to mend. The irritation gradually subsided and the urinary difficulties passed away. I have enjoyed excellent health now for the past seven months. I enjoy my meals, sleep soundly, and am as well as I was twenty years ago. I give all praise to Peruna."--C. B. Newhof.



PRES. C. B. NEWHOF,
Suffered From Catarrh of Bladder.

Suffered From Catarrh of Kidneys, Threatened With Nervous Collapse, Cured by Pe-ru-na.

Mr. F. B. Richards, 609 E Street, N. W., Washington, D. C., War Correspondent, writes: "Exactly six years ago I was ordered to Cuba as staff correspondent of the New York Sun. I was in charge of a Sun Dispatch boat through the Spanish American War. The effect of the tropical climate and the nervous strain showed plainly on my return to the states. Lassitude, depression to the verge of melancholia, and incessant kidney trouble made me practically an invalid. This undesirable condition continued, despite the best of treatment.

Finally a brother newspaper man, who like myself had served in the war, induced me to give a faithful trial to Peruna. I did so. In a short time the lassitude left me, my kidneys resumed a healty condition, and a complete cure was effected. I cannot too strongly recommend Peruna to those suffering with kidney trouble. To-day I am able to work as hard as at any time in my life, and the examiner for a leading insurance company pronounced me an "A risk."

In Poor Health Over Four Years. Pe-ru-na Only Remedy of Real Benefit.

Mr. John Nimmo, 215 Lippincott St., Toronto, Can., a prominent merchant of that city and also a member of the Masonic order, writes:

"I have been in poor health generally for over four years. When I caught a bad cold last winter it settled in the bladder and kidneys, causing serious trouble. I took two greatly advertised kidney remedies without getting the desired results. Peruna is the only remedy which was really of any benefit to me. I have not had a trace of kidney trouble nor a cold in my system."

Pe-ru-na Contains No Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotics of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.

MONTHLY MEETING OF CITY COUNCIL

That Body Decided to Purchase Dormitory Property.

PRICE NOT TO EXCEED $8,000

Council Thought Exhibit of Boulware Springs Water at State Fair Would be a Good Thing, and Appropriated Money for That Purpose.

The City Council met in regular monthly session at the City Hall Monday evening. There were present Chairman Broome, and Aldermen Benson, Cushman, Hodges, O'Neill, Taylor and Wittstock, making a full board.

After the meeting was called to order the minutes of the previous meeting were read and approved.

The reports of the marshal and collector were read, received and ordered filed.

The following resolution was offered by Alderman Taylor and unanimously passed:

"Resolved, That the city attorney be instructed to prepare and submit to this council an ordinance (or resolution) instructing and authorizing the board of public works to buy, at a cost not to exceed $8,000, the property known as the Dormitory; such property to be held for park purposes, or sold, as in the judgment of the board of public works is deemed best for the interests of Gainesville."

After the passage of this resolution the clerk read a number of bills, all of which, being found correct and properly approved, were ordered paid.

It was ordered that the light at the corner of Odd Fellow street and Palmetto avenue be added to the city light bill.

The question of introducing the celebrated Boulware Springs water at the State Fair was discussed, which resulted eventually in a motion by Alderman Benson that a sum not exceeding $96 50 be appropriated to place Boulware Springs water on exhibition at the fair, all bills in connection with expense of same to be approved by the Alachua County Fair Association. Five members of the board thought it was a good thing, with the result that the motion was carried, five to two.

An ordinance to provide for the giving of bond by the members of the board of public works as bond trustees, and amount of same, was placed upon its first, second and third readings and passed.

A resolution was passed instructing the mayor to remove, or cause to be removed, all the encroachments of whatever nature on and off Factory street to the Seaboard Air Line Railway.

There being no further business, the council adjourned.

After a couple of days' fishing sport in the vicinity of Homossassa and Crystal River, the party returned to Gainesville Sunday and were driven to Spring Park Farm, where they were entertained until yesterday, when they proceeded to Savannah.

Manager Callison invited several of his friends to Spring Park, and altogether the affair was one full of good cheer and fellowship.

Mr. Wiggins An Old-Timer.

"I see by The Sun of recent date that there are only three residents of Alachua county who were citizens of Florida as a Territory," remarked Burrell Wiggins of Hague, who was among the visitors to Gainesville Monday. "I was born in Alachua county on the spot where the waterworks plant now stands, in 1841, and inasmuch as Florida was not admitted to the Union until 1845, I am somewhat of an 'old-timer' myself."

Mr. Wiggins did not give this information for publication and said so at the time; but these pioneers are so few and far between at this age that he deserves to go on the list as a fourth one, if he has not already constituted one of the three.

Notwithstanding the fact that Mr. Wiggins has advanced to a ripe age, he is yet active, and declares boastingly that he can endure as much work as the average young fellow, and conclude his day's labors without any more fatigue. He has always been regarded as one of the most successful planters in the county, and has reared a useful and energetic family.

H. S. Breeden of Santa Fe, one of the most progressive farmers of that section, was in the city yesterday and renewed his subscription to The Sun. The price has been lower this season than for two or three years, notwithstanding that the output was short, and several planters who were not under contract are holding their cotton.
